INDEX TO AUTHORS

ALBERT, A., GIBSON, M. I., and RUBBO, S. D., the influence of chemical constitution on anti-bacterial activity. Part VI. The bactericidal action of 8-hydroxyquinoline (oxine), 119

AMOS, D. B., the agglutination of mouse leucocytes by iso-immune sera, 464

ANDERSON, K., the effect of staphylococcal filtrates on isolated rabbit small intestine with special reference to enterotoxic strains of *Staph. pyogenes*, 548

BALDWIN, R. L., the neurotoxin of *Shigella shigae*. 2. Examination of the toxin in the oil-turbine ultracentrifuge, 217

BANGHAM, A. D., MAGEE, P. N., and OSBORN, S. B., the effect of inflammation and other factors on the movement of radioactive glass particles from the peritoneal cavity, 1

BARNETT, MARGARET, BUSHBY, S. R. M., and MITCHISON, D. A., tubercle bacilli resistant to isoniazid: virulence and response to treatment with isoniazid in guinea-pigs and mice, 568

BARR, MOLLIE, and LLEWELLYN-JONES, MONA, some factors influencing the response of animals to immunization with combined prophylactics, 12

——— ——— interference with antitoxic responses in immunization with combined prophylactics, 233

BELYAVIN, G., see *Smith, Wilson.*

BENACERRAF, B., see *Biozzi, G.*

——— see *Halpern, B. N.*

BIOZZI, G., BENACERRAF, B., and HALPERN, B. N., quantitative study of the granulopectic activity of the reticuloendothelial system. II. A study of the kinetics of the granulopectic activity of the R.E.S. in relation to the dose of carbon injected. Relationship between the weight of the organs and their activity, 441

——— see *Halpern, B. N.*

BIRD, G. W. G., observations on haemagglutinin "linkage" in relation to iso-agglutinins and auto-agglutinins, 131

BOEVÉ, J. J., see *Wensinck, F.*

BOSANQUET, FRANCES D., DANIEL, P. M., and VOLLUM, R. L., the tuberculin reaction of the cerebral meninges in the guinea-pig, 376

BOWDEN, J., the action of aureomycin in pneumococcal infections in normal and leucopenic rabbits and in mice, 497

BROWN, J. A. H., studies on the antigenic structure of herpes simplex virus, 290

BURTON, J. F., the histological demonstration of alkaline phosphatase activity in human endometrium, 159

BUSHBY, S. R. M., see *Barnett, Margaret.*

CHACKO, C. W., a study of the treponema immobilizing antibody in syphilis, 556

CLARK, E. C., LATHE, G. H., and RUTHVEN, C. R. J., the fractionation of lipids which inhibit haemagglutination, 542

COHEN, H., see *Smith, Wilson.*

COOMBS, R. R. A., HOWARD, A. N., and MYNORS, L. S., a serological procedure theoretically capable of detecting incomplete or non-precipitating antibodies to soluble protein antigens, 525

CRUICKSHANK, B., see *Hill, A. G. S.*

CRUICKSHANK, C. N. D., and LOWBURY, E. J. L., the effect of pyocyanin on human skin cells and leucocytes, 583

CZEKALOWSKI, J. W., MCLEOD, J. W., and RODICAN, J., the growth and respiration of leptospira in solid or semi-solid media with special reference to Dinger's phenomenon, 588

DANIEL, P. M., see *Bosanquet, Frances D.*

DENZ, F. A., on the histochemistry of the myoneural junction, 329

DEXTER, D., STONER, H. B., and GREEN, H. N., the inhibition of a water diuresis by short periods of muscle ischaemia, 625

DONALD, HEATHER B., see *Fiset, P.*

DONIACH, I., and LOGOTHETOPOULOS, J., the goitrogenic action of resorcinol in rats, 146

FEINBERG, J. G., and MORGAN, W. T. J., the isolation of a specific substance and a glycogen-like polysaccharide from *Trichomonas foetus* (var. Manley), 104

FENNER, F., and WOODROOFE, GWENDOLYN M., the pathogenesis of infectious myxomatosis: the mechanism of infection and the immunological response in the European rabbit (*Oryctolagus cuniculus*), 400

FISET, P., and DONALD, HEATHER B., a method for influenza antibody absorption, 616
FONNESU, A., and SEVERI, C., nucleic acids in the kidney in cloudy swelling, 341
FRASER, K. B., genetic interaction and interference between the MEL and NWS strains of influenza A virus, 319

GELL, P. G. H., and HINDE, ISOBEL T., the effect of cortisone on macrophage activity in mice, 273
GIBSON, M. I., see *Albert A.*
GLADSTONE, G. P., see *van Heyningen, W. E.*
GLOOR, ELIZABETH, see *Wunderly, C.*
GOWANS, J. W., the action of penicillin and terramycin on pneumococcal infection in normal and leucopenic rabbits, 35
——— the effect of some antibiotics on coccal infection in mice, 195
GRANT, R. A., precipitin reactions in the presence of mono- and polyhydric alcohols, 50
——— see *Marrack, J. R.*
GREEN, H. N., see *Dexter, D.*

HALPERN, B. N., BENACERRAF, B., and BIOZZI, G., quantitative study of the granulopectic activity of the reticulo-endothelial system. I. The effect of the ingredients present in India ink and of substances affecting blood clotting *in vivo* on the fate of carbon particles administered intravenously in rats, mice and rabbits, 426
——— see *Biozzi, G.*
HARRIS, H., chemotaxis of monocytes, 276
——— the movement of lymphocytes, 599
HARRIS-SMITH, PATRICIA W., see *Keppie, J.*
HÄSSIG, A., see *Wunderly, C.*
HILL, A. G. S., and CRUICKSHANK, B., a study of antigenic components of kidney tissue, 27
HINDE, ISOBEL T., see *Gell, P. G. H.*
HOLMAN, R. A., and MCLEOD, J. W., observations on Schales' reaction for hydrogen peroxide, with special reference to its use in complex solutions containing sugar and peptone, 191
HOWARD, A. N., see *Coombs, R. R. A.*
HOWARD, J. G., the haemolysin of *Clostridium histolyticum*, 564
——— and WALLACE, K. R., the comparative resistances of the red cells of various species to haemolysis by streptolysin O and by saponin, 181
——— ——— the comparative resistances of rabbits, guinea-pigs and mice to the lethal actions of streptolysin O and saponin, 185
HOWARD, J. G., WALLACE K. R., and WRIGHT, G. PAYLING, the inhibitory effects of cholesterol and related sterols on haemolysis by streptolysin O, 174
HUDSON, B., see *Lovell, R.R.H.*

ISAACS, A., see *Sampaio, A. A. de C.*

JOWSEY, JENIFER, OWEN, MAUREEN and VAUGHAN, JANET, microradiographs and autoradiographs of cortical bone from monkeys injected with ^{90}Sr, 661
——— RAYNER, BARBARA, TUTT, MARGARET and VAUGHAN, JANET, the deposition of ^{90}Sr in rabbit bones following intravenous injection, 384

KEPPIE, J., SMITH, H., and HARRIS-SMITH, PATRICIA, W., the chemical basis of the virulence of *Bacillus anthracis*. II. Some biological properties of bacterial products, 486
——— see *Smith, H.*

LATHE, G. H., see *Clark, E. C.*
LE BOUVIER, G. L., observations on the poliomyelitis complement fixation test, 300
LINDER, G. C., PARKER, R. G. F., and SELZER, G., bromsulphthalein retention in young rats on diets producing liver necrosis, 656
LLEWELLYN-JONES, MONA, see *Barr, Mollie.*
LOGOTHETOPOULOS, J., see *Doniach, I.*
LOVELL, R. R. H., SCOTT, G. B. D., HUDSON, B., and OSBORNE, J. A., the effects of cortisone and adrenocorticotrophic hormone on dispersion of bruises in the skin, 535
LOWBURY, E. J. L., see *Cruickshank, C. N. D.*

MACKENZIE, D. H., excretion of urinary pepsinogen (uropepsin) in cases of peptic ulceration and of macrocytic anaemia, 596
MCLEOD, J. W., see *Czekalowski, J. W.*
——— see *Holman, R. A.*
MACNAMARA, F. N., Uganda S and yellow fever viruses. A slight relationship shown by experiments in rhesus monkeys and white mice, 392
MACPHERSON, I. A., WILKINSON, J. F., and SWAIN, R. H. A., the effect of *Klebsiella* polysaccharides on haemagglutination by and multiplication of the influenza group of viruses, 603
MAGEE, P. N., and PALMER, A. A., the absorption of particles from the peritoneal cavity in rats and mice treated with cortisone, 458

MAGEE, P. N., see *Bangham, A. D.*
MANTEN, A., and ROWLEY, D., influence of chloramphenicol and specific antserum on the variability of the K12 strain of *Bact. coli*, 23
MARRACK, J. R., and GRANT, R. A., the interaction of antigens and antibodies in the presence of low concentrations of salt, 263
MENKIN, V., the significance of the accumulation of cortisone in an inflamed area, 412
——— on the localization of corticotropin (ACTH) in an inflamed area, 420
MITCHELL, J. C., observations on the virus of molluscum contagiosum, 44
MITCHISON, D. A., see *Barnett, Margaret.*
MORGAN, W. T. J., and WATKINS, WINIFRED M., the inhibition of the haemagglutinins in plant seeds by human blood group substances and simple sugars, 94
——— see *Feinberg, J. G.*
MYNORS, L. S., see *Coombs, R. R. A.*

ORLANS, EVA S., the effects of photo-oxidation on antibodies, 164
OSBORN, S. B., see *Bangham, A. D.*
OSBORNE, J. A., see *Lovell, R. R. H.*
OWEN, MAUREEN, see *Jowsey, Jenifer.*

PALMER, A. A., see *Magee, P. N.*
PARKER, R. G. F., see *Linder, G. C.*
POLLOCK, M. R., the effect of oxygen lack on penicillin-induced penicillinase formation by *Bacillus cereus*, 251
POPE, C. G., and STEVENS, MURIEL, F., the purification of antitoxin by absorption of non-antitoxic antibodies, 56
——— ——— the preparation of non-flocculating diphtheria antitoxin by absorption of non-antitoxic antibodies, 241

RAY, B. GHOSH, and SWAIN, R. H. A., serum antibodies in mumps, 501
RAYNER, BARBARA, TUTT, MARGARET and VAUGHAN, JANET, the deposition of ^{91}Y in rabbit bones, 138
——— see *Jowsey, Jenifer.*
RENAUD, H., see *Wensinck, F.*
REYNOLDS, BETTY and ROWLEY, D., synergism between streptomycin and penicillin, 651
RINDANI, T. H., and SELYE, H., inflammation as influenced by a topical blockade of the reticulo-endothelial system, 674
RODICAŃ, J., see *Czekalowski, J. W.*
ROWLEY, D., see *Manten, A.*
——— see *Reynolds, Betty.*

RUBBO, S. D., see *Albert, A.*
RUTHVEN, C. R. J., see *Clark, E. C.*

SAMPAIO, A. A. de C., and ISAACS, A., the action of trypsin on normal serum inhibitors of influenza virus agglutination, 152
SAPEIKA, N., effect of dicoumarol on the ascorbic acid content of the liver and adrenal glands, 88
SCOTT, G. B. D., see *Lovell, R. R. H.*
SELYE, H., see *Rindani, T. H.*
SELZER, G., see *Linder, G. C.*
SEVERI, C., see *Fonnesu, A.*
SMITH, C. H., and WOODIN, A. M., a note on the antigenic properties of corneal extracts, 647
SMITH, H., see *Keppie, J.*
——— KEPPIE, J., and STANLEY, J. L., a method for collecting bacteria and their products from infections in experimental animals with special reference to *Bacillus anthracis*, 471
——— ——— ——— the chemical basis of the virulence of *Bacillus anthracis*. I. Properties of bacteria grown *in vivo* and preparation of extracts, 477
SMITH, WILSON, COHEN, H., BELYAVIN, G., and WESTWOOD, J. C. N., the effects of ethyl ether on some biological properties of influenza virus, 512
STAMP, Lord, Studies on O/R potential, pH and proteinase production in cultures of *Streptococcus pyogenes* in relation to immunizing activity, 347
STANLEY, J. L., see *Smith, H.*
STEVENS, MURIEL F., see *Pope, C. G.*
STONER, H. B., see *Dexter, D.*
——— see *Whiteley, H. J.*
SWAIN, R. H. A., see *Macpherson, I. A.*
——— see *Ray, B. Ghosh.*

THRELFALL, C. J., see *Whiteley, H. J.*
TOBIN, J. O'H., some observations on the effect of X-rays on the behaviour of a temperate phage in two strains of *Ps. pyocyanea*, 635
TUTT, MARGARET, see *Jowsey, Jenifer.*
——— see *Rayner, Barbara.*

VAN HEYNINGEN, W. E., and GLADSTONE, G. P., the neurotoxin of *Shigella shigae*. I. Production, purification and properties of the toxin, 202
——— ——— the neurotoxin of *Shigella shigae*. 3. The effect of iron on production of the toxin, 221
——— ——— the neurotoxin of *Shigella shigae*. 4. A semi-micro method for the flocculation assay of the toxin, 230

VAUGHAN, JANET, see *Jowsey, Jenifer.*
——— see *Rayner, Barbara.*
